

LEODIS STAIRLIFTS

HELPING YOU WITH THE UPS AND DOWNS IN LIFE

Est. 1991

 Trustpilot
EXCELLENT

Are you having problems or struggling to get up and down your stairs?

Loss of mobility throughout the home can be a frustrating and disheartening experience. The decision of whether to stay in your home or move house is a very difficult choice. Having a stairlift fitted could be the ultimate solution to a difficult problem allowing you to stay with the safety and security of your own home.

Established since 1991, **LEODIS** STAIRLIFTS have helped people regain their independence in their own home, offering them choice from leading manufacturers, impartial advice and a personal service, as expected of a family run company, that is second to none.

At **LEODIS** STAIRLIFTS our aim is to guide you through the options available to you to suit your specific requirements and make your experience with us a smooth and easy process. Our service and support is designed to provide you with confidence and complete peace of mind.

Straight Stairlifts

Quality, safety and reliability are foremost when buying a stairlift and here at **LEODIS** STAIRLIFTS we only supply the best. As agents for the leading manufacturers, we can offer you impartial advice on the straight stairlift that is right for your needs both now and in the future.

Buying any stairlift can be confusing so in this brochure we aim to explain the options available to you, enabling you to make a more informed choice. A free, no obligation, home survey is an essential part of the **LEODIS** service, here we will advise you which of our products best suits your needs and your budget. We will measure your staircase and discuss if any alterations need to be made i.e. moving a radiator and, in areas where access may be obstructed, if you need a hinged/sliding track.

LEODIS STAIRLIFTS supply and install both new and reconditioned straight stairlifts. Our stairlifts are available for installation within days of your order with us and we can, subject to stock, offer NEXT DAY installations.

Guiding you through the process of buying a stairlift from LEODIS STAIRLIFTS

Our service and support at **LEODIS STAIRLIFTS** is designed to provide you with confidence and complete peace of mind. We want to make your experience with us as hassle free as possible.

1. During our initial conversation we will arrange your **FREE**, no obligation home survey.
2. At your **free** home survey we will:
 - Discuss the options available to you, as agents for the leading manufacturers, we can offer you **impartial** advice.
 - Show you photographs of our stairlifts in situ.
 - Measure / survey your staircase.
 - leave you with a written quotation and our selling pack.

We will then leave you alone.

We pride ourselves on our **NO hassle / NO call** back service.

3. Should you wish to go ahead, we will arrange a mutually convenient date and time for your stairlift installation. This can be often the **NEXT DAY**.

You will not be asked for a deposit.

4. Your installation will be carried out by one of our experienced, friendly stairlift engineers. He will install your stairlift and demonstrate how your stairlift will work, answering any questions/queries you may have. Your home will be left in a clean and tidy fashion.

Only when you are entirely satisfied do you pay.

Should you need to contact **LEODIS STAIRLIFTS** you can rest assured your call will be answered in person by an engineer
24 hours a day, 7 days a week
(including evenings, weekends and bank holidays)

Handicare 1100 Straight Stairlift

The ultra slim, Handicare 1100 straight stairlift, has the slimmest straight stairlift rail on the market. The stairlift is a friction driven system which provides a smooth and quiet ride and has no toothtrack which is traditionally seen in straight stairlifts.

The stairlift is battery operated and is charged by a continuous charge strip on the rail. It comes complete with a manual swivel and manual footrest as standard, although both items can be powered if required.

The handicare 1100 can have a sliding or manual hinged track if required.

How do I operate my stairlift?

The unique toggle is standard on all Handicare stairlifts. It can be situated on the end of either arm rest and can be easily operated by hand or arm.

Call / Send remotes are supplied as Standard with our Handicare range of stairlifts, allowing you to call and send your stairlift without being seated on it.

Usefull information

Footplate to seat: 430-520mm
Width of seat at widest: 450mm
Min. Folded intrusion: 320mm
Max. User weight:
40° - 50° = 20st
30° - 45° = 22st

The seat comes in a choice of 6 colours to suit any décor.

Handicare Perch / Stand Straight

It is our aim at **LEODIS** STAIRLIFTS to find you the stairlift that suits your needs, for the majority of people that involves a 'sit on' stairlift. If you have painful knee or hip joints or restricted movement there may be another option for you.

The Handicare Perch seat allows you to remain in a standing position whilst accessing your stairs. The seat is available with the Handicare 1000 and comes with the standard features of that model including an inertia seat belt for your safety.

Useful information

Footplate to seat: max 870mm

Width of seat at widest: 460mm

Max. user weight: 140kg/22st

For further measurements

please ask your **LEODIS** STAIRLIFT engineer.

The seat comes in a choice of 6 colours to suit any décor.

Do you have restricted space in your home?

Does the bottom of your staircase go into an open walkway or opening door? If this is the case then we have a solution.

THE EASY HINGE

Where space is limited or the stairlift rail would present a tripping hazard or obstruction of a door opening, the EASY HINGE rail is the budget solution. Once folded, it leaves the hallway / doorway free from obstruction.

The EASY HINGE works with the assistance of a gas strut to make operation as easy as possible.

Sliding Rail

The sliding rail is the powered option to get around open hallways and doorways at the bottom of the stairs.

The rail moves up and down the staircase with the stairlift leaving the bottom of the stairs obstruction free.

Handicare Heavy Duty 1000 Straight Stairlift Range

Should the standard stairlift not be adequate for your requirements, we can offer two heavy duty stairlifts.

The Handicare XL which has a safe working load of 25st or 160kg.

The Handicare XXL which has a safe working load of 31st or 200kg.

The seat comes in a choice
of 6 colours to suit any décor.

Your questions answered

Hopefully by reading through our brochure we have answered any questions you may have, however we have answered some frequently asked questions below.

How long will I have to wait for my stairlift?

Once you have placed an order with **LEODIS STAIRLIFTS** your stairlift can often be installed within days and, in some cases, as quickly as the very **NEXT** day.

How long will it take to install my straight stairlift?

Our experienced, friendly engineer will fit your straight stairlift in approximately 2-3 hours.

Will my stairlift be attached to the wall?

Many people think that stairlifts are fixed to the wall however this is not the case. The stairlift will be attached directly to the staircase itself. During your free home survey our **LEODIS** engineer will advise you on the most convenient side of the stairs for your stairlift and if anything ie radiator may need to be moved.

What happens if there is a power cut?

Your stairlift will still work for a limited time if you have a power cut. Your stairlift is battery operated and these re-charge when your stairlift is left on a charge point top or bottom of the track or, in the case of the Handicare 1100, anywhere on the track. Your stairlift will alert you by bleeping when it is not left on a charge point. If your stairlift batteries go flat they may need to be replaced.

Do you only sell new straight stairlifts?

At **LEODIS STAIRLIFTS** we can offer both new and reconditioned straight stairlifts, both available for **NEXT** day delivery in most cases. As agents for the leading manufacturers we can advise and install the product that best suits **YOUR** requirements.

What do I do when I need a new carpet?

The best time to replace your carpet is before installation however if this is not possible **LEODIS STAIRLIFTS** can remove then reinstall your stairlift, a cost will be incurred for this service.

If you have any further questions or queries **LEODIS STAIRLIFTS** will be happy to answer your question in person. Call us NOW on **0800 542 6045**.
